

ALUMNI VOICES

**BE SOMEONE
YOU'D LOOK
UP TO**

Scientific investigations are unlocking the secrets of the universe. What will you learn in your lifetime?

Our education programmes help students develop a passion for learning that will stay with them for the rest of their lives.

 **Cambridge Assessment
International Education**

School and schooling become meaningful and more rewarding when you find yourself connected to the fibers of success at Globally coveted universities. This journey begins at Light International School, Mombasa, to the global community. We are knit with our alumni and we follow through their success stories at the universities and beyond.

Once at LIS Mombasa, always a family. When they tell their tales, you feel them; how much effort they put into achieving their goals, how many times they would feel like giving up, but soldiered on!

We live on!....we produce individuals who are morally upright, socially responsible, and academically competent.

HARSH HITESHKUMAR PALAN

Embarking on my educational journey at Light International School from 2019 to 2023 has been a defining period in my life. The school, situated in the heart of Mombasa, has earned its reputation as one of the best educational institutions, and my experience there has been nothing short of transformation. Throughout my IGCSE AS, and A Levels, Light International School provided not only a rigorous academic curriculum but also a supportive community that fostered personal growth and holistic development. The dedicated faculty, state-of-the-art facilities, and a vibrant student body created an environment conducive for learning and exploration. We stretched to our limits.

To my fellow students at Light International School, I offer a piece of advice gleaned from my journey: embrace the power of hard work and enthusiasm for learning. Success is not just about grades; it is about the dedication to improvement and the curiosity to explore beyond the textbooks. Seize every opportunity to expand your horizons, be resilient in the face of challenges, and approach each day with a genuine eagerness to learn.

Complimenting Light International School feels like second nature, given its impact on my academic and personal development. The commitment to excellence exhibited by the school is genuinely commendable. The faculty's dedication to nurturing each student's potential and emphasizing a well-rounded education equipped me with the skills and knowledge necessary for success. I would name teachers but I couldn't possibly name all of them. Their input was immeasurable. The school's holistic approach, blending academics with extracurricular activities, contributed significantly to my ability to adapt, innovate, and collaborate, a testament to the school's unwavering commitment to producing well-rounded individuals.

Looking ahead, I am thrilled to announce that I will be pursuing my undergraduate degree in Computer Science at a prestigious G8 university in Australia. The foundation laid by LIS Mombasa has prepared me for the challenges and opportunities that lie ahead. I am confident that the academic rigour, critical thinking skills, and global perspective instilled in me during my time at the school will serve as invaluable assets in my future academic and professional endeavours.

These qualities will not only shape your academic journey but also lay the groundwork for a fulfilling and prosperous future. The foundation you build today at LIS Mombasa will undoubtedly pave the way for your continued growth and success in whatever path you choose. My mother would say " for me, LIS stands for Learning Is Sweet".

P.S. I still miss the old school bell.

AMY NJAU

Hello there! My name is Amy Njau and I am a graduate of the Year 13 class of 2023. My journey with Light began in Year 8 when I joined Light Nairobi and then transferred over to the Mombasa branch in Nyali. It's safe to say who I was then and who I am now are two completely different people. During my time at Light International School, I was exposed to a completely new world. Be it culture or education, school became more than just a thing I had to do to grow up. Education and the pursuit of knowledge became something I strived for. Excellence became my motto. I wasn't shy to be smart in my own way.

Maybe it was the positive academic environment of the school, or maybe it was the fact that all our points of view mattered and the teachers cared. Either way, my being at Light International School changed my perspective and even the prospects of my future. Extracurricular activities such as MUN, World Scholars, and weekly clubs, allowed me to grow both mentally and physically. Life at LIS was never once bleak.

I am currently waiting to begin my journey of higher education, next year in spring, at the University of Economics and Human Sciences in Warsaw to pursue a bachelor's degree in psychology. While I wait I am taking a data analytics course online, which I never would have imagined doing voluntarily all those years ago. But then again, this was the same school that persuaded my sister, Tracy Njau, to pursue a law degree. I am proud to say that Light International School was the launching pad of my future and I can't wait to hear the stories of graduates to come.

This school equipped me with the skills, knowledge, and character I need to not only survive but thrive in life now and in the years to come. I believe that Light has done the same for my beloved classmates and peers who have become family to me. Light is truly timeless in its methods of creating upright members of society. If I were asked to do it all again, I would. Light truly grants one access to tremendous success.

It lives true to the motto: Access to Success.

Greetings, my name is Alana Zarine Aniere, and I started my journey with Light International Schools as early as 2015. I studied at the Malindi branch, and later transferred to Mombasa to complete A levels.

After being a part of this family for so long, I can confidently say that it made me the person I am today. Being surrounded by encouraging mentors and inspirational students, has brought out the best in me. I learned discipline through consistency, and this in turn gave me the desire of wanting to learn so much more. Eventually through this, I found that I have a passion for business studies.

Alana Zarine Aniere

Therefore, I am grateful to my parents for encouraging me, as well as Light International for making it possible for me to secure my dream. I recently got accepted at the University of Canberra, Australia to study Digital Marketing. I cannot wait to embark on this new journey because I know that the school has prepared me in the best way possible.
