PRINCIPAL'S MESSAGE

We have reached the end of Term 1 of the academic year of 2022/23. Thank you for making the term wonderful and productive.

I can't thank everyone enough for your support in attending meetings, organizing, donating, and doing all that was necessary to support students—both at home and school and sharing with us the responsibility of guiding our students through their studies.

To the students:

Thank you for all your hard work throughout the academic year. I am honored to be your principal. For now, we wanted simply to reach out to say that we miss our students very much.

We wish you a safe and healthy break and look forward to seeing you again in the next term. This brief newsletter will cover some events that our students took part in during the first term of this school academic year. During the term, we had several activities like swimming, basketball, and table tennis tournaments,

Mentoring programs, food and book bazaar, and other activities held in our school like parent's sports day,

We also shared photos of curricular & extracurricular activities that we have done throughout the term on our social platforms;

JUNIOR ATHLETICS

Our Under 8, 10 and 12 junior athletics teams represented Light International School Malindi at Agakhan Academy Mombasa. They played well and had fun while at it.

BEACH CLEAN UP

Leave nothing at the beach but footprints

The school organized a beach clean-up day for the students. They got a chance to practice taking good care of the environment and applying what they learn in geography class.

BOOK BAZAAR

The school has reading time every morning in order to encourage a culture of reading among the students. To reach our goal we also wish our students to gain habits such as reading, purchasing, exchanging, and donating books. Therefore, we organized a BOOK DAY activity in which a book store came to our school to open a stand and sell books.

FOOD BAZAAR

The mentoring department organized a Food Bazaar on Tuesday, 8th November 2022. The program aimed at raising money that shall go to drought fundraising. The parents, students, and teachers participated and a great amount was raised.

KINDERGARTEN TRIP TO THE AIRPORT

The kindergarten students visited the Malindi International Airport for an educational trip.

They got to learn weather instruments and their functions, went inside an aircraft and learn the role of pilot and other staff at the airport.

NO BACKPACK DAY

On this day students carry anything but a backpack to school. It is an activity the student council came up with to see the student's creativity and to create awareness for the millions of students around the world who go to school carrying their books in hand or in other receptacles because they cannot afford backpacks.

ORPHANAGE VISIT

Our students visited a neighboring orphanage. This act helps them learn how to give back to the community with kindness.

VOTING

To educate the students on the importance of voting, the school organized voting day. The students were able to elect their own leaders, which was a great success. They also learned that it is their right to vote.

SWIMMING GALA

Our under 7,8,9 years swimming team represented Light International School Malindi at a swimming gala held at Braeburn School Mombasa.

They did well and were awarded certificates for being position 2 in freestyle relays, position 1 for backstroke, and position 2 for medley relays. We are so proud of our swimming team

ROBOTIC CLUB

The robotic club was introduced in the first term of the academic year 2022/23. It has been a great opportunity for students to gain a new experience and have an idea about the club. Being part of a robotics club means being a part of a team. Students were working with 2 or 3 other members to design, build and control their robots. Working collaboratively and cooperatively is essential to a successful experience in the robotics club. It was a great experience for the students and they got to learn several skills from the club. We look forward to seeing more students join the robotic club.
