1. INTRODUCTION

1.1. WELCOME PARENTS AND STUDENTS!

This handbook is presented to familiarize you with our school rules and policies as well as provide you with general information. You are encouraged to read this handbook so that you will know the rules and policies and become involved in your school. Each student is expected to respect the rights and privileges of other students, school staff including administration, teachers, and non-teaching staff. Students shall exercise their rights responsibly and in compliance with rules established for the orderly conduct of the school's educational mission. The school's rules of conduct and discipline are developed to achieve and maintain order in the school.

1.2. ABOUT LIGHT INTERNATIONAL SCHOOL

Light International School (LIS) is a unique co-educational day and boarding school that offers the Cambridge International Curriculum from Kindergarten (Aged 3-5) through to A- level (from Year 7 to Year 13) to students from diverse geographical and cultural backgrounds. The school has roots in the highly successful and popular Light Academy schools located in different cities across Kenya and is dedicated to the international curriculum. At LIS we go beyond producing academically competent students (which is part of our culture) and also bring up socially responsible and culturally sensitive individuals who are truly worlded citizens.

Located in the serene Karen suburb of Nairobi off Lang'ata Road, LIS boasts a quiet environment conducive to richly rewarding learning experiences as our students have very few distractions to contend with.

Our school pays particular attention to offering students opportunities to participate in national and international project Olympiads, opportunities that have seen a great many of them go on to shine in different fields in events hosted in different countries across the globe. Also, we have been keen to bring some of these competitions home to Africa and in this regard, we take pride in being the first school to host the East African Round of the world-famous World Scholar's Cup. We have since hosted this annual event that brings together primary and secondary school 'scholars' from all over East Africa and beyond to showcase their mastery of world events, debating and writing skills as well as engage in intercultural exchanges. In addition, aware of the urgent need to secure and save our environment for future generations, we founded a popular, unique project Olympiad dedicated to the environment-Golden Climate International Project Olympiad (GCIEPO)-which we host annually. GCIEPO is the biggest competition of its kind in East and Central Africa. It attracted participants from over 20 countries each year. It is a non-profit competition aimed at promoting a global understanding of environmental issues and the realisation of sustainability of the same, while also providing challenges and opportunities for students that will equip them with the skills and knowledge needed to be the leaders, scientists, and engineers of the future, agents who will promote and contribute to the promotion and protection of the environment throughout their lives.

Our warmly home-like hostels have something unique about them-the availability of a loving and caring team of carefully selected former students and other more mature members of staff, working under a dorm master, to keep order there. These students' 'brothers or sisters' help to ensure that the students are responsible and orderly whenever they are in their hostels.

LIS boasts of a highly motivated staff from diverse cultural and religious backgrounds that work in harmony, tapping into the richness of this diversity. This highly motivated, dedicated team works unsparingly to ensure that the students entrusted to us leave the school with value-added education.

6. If a student has trouble with a locker or the combination is locked inside, the student may make a report to the reception desk, and a custodian will assist.

27. SEARCHES

27.1. Philosophy

The LIS recognizes that substance abuse, the harmful use of drugs and alcohol, the possession of objects or materials considered unsafe, and the problems associated with these are becoming increasingly commonplace in our society. We recognize that a student's involvement can lead to the illness of chemical dependency and alcoholism or may be harmful to themselves or other students. We support prevention, early intervention, and appropriate referral. We will be involved in disciplinary action when needed.

27.2. Authorized Personnel

Searches of a student or a student's personal belongings can be conducted by any administrators or the discipline committee or any teacher assigned by the school administration.

27.3. Dogs

Subject to the following conditions, the administrator may authorize the use of dogs to detect the odour of prohibited substances or items on school grounds. The administrator shall be present.

27.4. Inspection (Suspicion less Searches)

School property, such as lockers and desks, are jointly held by the school and the student. School authorities have the right to conduct a general inspection of all such property on a regular basis. During these inspections, items that are school property, such as textbooks and library materials may be collected. Students have no expectation of privacy in such locations. All vehicles on school property are subject to general inspection (suspicion less searches).

27.5. Personal Searches

When a pat-down search of a pupil's person is conducted, the person conducting the search shall be the same sex as the pupil. A witness of the same sex as the student shall be present during the search. Reasons for a student search in front of others or the opposite sex would include staff/officer safety and/or exigent circumstances.

27.6. Search at the Campus Gate

Students are subject to search at the school gate every day as they are reporting to school. The search will be done by security guards and boarding watchman. Students should cooperate and allow the personnel to search their bags. Any defiance may attract disciplinary action.

27.7. Reasonable Suspicion

The concept of "reasonable suspicion" allows student searches by school officials if the officials have information that leads them to believe that a student has broken the law or school policy and that the search will yield evidence of a violation. A desk, locker, vehicle, phone, or person may be searched if reasonable suspicion exists to believe that evidence of a violation of the law or a school policy is contained therein.

28. MOBILE PHONES AND OTHER ELECTRONIC GADGETS

Children are not permitted to bring mobile telephones to school. A child found in possession or in use of a phone will have it confiscated.

This policy sets out the School's framework for determining what is 'acceptable' and 'unacceptable' use of mobile technology by students while they are at school.

The purpose of this policy is to prevent the unacceptable use of mobile phones, camera-phones and mp3 players by students, and thereby to protect the school's staff and students from undesirable materials, filming, intimidation or harassment.

Note: For the purposes of this policy, all references to 'mobile phones' should be taken to include camera phones and mp3 players, even those who do not incorporate communications technology.

It is recognised that these documents must be reviewed and regularly revised in response to developments on technology.

28.1. The Policy:

1. The School strongly advises that mobile phones should not be brought into school at all. Students have no legitimate need to use a mobile phone at all during the school day.
2. The School accepts that there may be particular circumstances in which a parent wishes their child to have a mobile phone for their journey to and from school.
3. Where a mobile phone is brought into school, it is entirely at the student's & parents' own risk. The School accepts no responsibility for the loss, theft or damage of any phone, mp3 player or other mobile device brought into school.
4. Mobile phones which are brought into the school must be turned off (not placed on silent) and stored out of sight immediately the student arrives at the school gate. They must remain turned off and out of sight until the student has left the school site at the end of their day.
5. If a mobile phone is seen by a member of staff, that member of staff will be required to confiscate it immediately. The member of staff will take it straight to an Administrator's Office for safe storage, or store it in a locked, safe area and take it to the Principal's office at the earliest opportunity, clearly communicating to the Principal the name of the pupil.
6. When a mobile phone is confiscated, the matter will be recorded on the child's behaviour log so that the consequence given by the staff is fair and consistent.
7. On the occasion on which a student's phone is confiscated, only his/her registered parent/guardian will be able to collect it from Administrator's Office on the last day of the respective term.
8. If a mobile phone is found during an inspection, same procedures stated above will be followed.
9. Any student who refuses to hand over a mobile phone when requested to do so will be removed from their lesson by a member of the Senior Leadership Team, and the refusal will be treated as a disciplinary matter.
10. It is forbidden to record photographic images (still or video) or sound recordings of staff or students at any time without their explicit permission.
11. Any student caught filming another person (and/or uploading images or video onto the Internet) will have their phone confiscated. It will be treated as a disciplinary matter, and their parents will usually be informed. If the action is repeated, flagrant or of a severe nature, the case will be treated as a serious disciplinary issue. In such circumstances, the child's parents will be informed, and the Senior Management Team (SMT) may be notified.
12. The School reserves the right to search the content of a confiscated device where there is a reasonable suspicion that it may contain undesirable material, including those which promote pornography, violence or bullying.
13. The PE changing rooms are locked once students have left go to their activity and re-opened when they return. Students are responsible for supervising their own belongings during the time in the changing facilities. Students and parents should be aware that mobile devices are particularly vulnerable to being stolen in changing rooms. Hence the School's advice in point 1 above that mobile phones should not be brought into school at all, but especially on a PE day.
14. Where parents or students need to contact each other during the school day, they should do so only through the School's telephone system (via Reception, class teacher or Dean of Students) and not via student mobile phones.
15. Beside mobile phones, loudspeakers are not allowed to bring in school under any circumstances. In case a student found with the device similar procedure mentioned above will be followed.

29. SPORTS AND EXTRACURRICULAR PROGRAMS

29.1. Code of Conduct

1. LIS offers sports and co-curricular activities after school for students. Extracurricular or co-curricular activities are supplements to the regular instructional programs and afford students opportunities for enrichment. **Participation in extracurricular and co-curricular activities is a privilege, not a right.** As representatives of their school, students participating in such activities are expected to meet high standards of behaviour. Students who accept a position or place in a co-curricular activity are making a commitment to the school and to their teammates.
2. *Students should not register for two or more co-curricular activities which have overlapping schedules.*
3. We intend to provide each student with a chance to develop an area of interest and to enhance their experience of school life overall. The primary objective of Extra Curricular Activities is to develop leadership abilities, interpersonal relationships, and sense of responsibility, cooperation and generosity among the students, personal discipline, and selfless collaboration for the greater good of the community. It also aims to discover the special talents and potentials of the students.

4. In addition to the school clubs offered, LIS is also active in different local and international competitions, not only in sports and music but in chess, math, and science as well.
5. All students are wholeheartedly encouraged to take the opportunity of beginning or pursuing an interest that lies outside the academic life of the school. Extra-Curricular Activities provide students with the chance to expand their horizons, and good universities throughout the world are always seeking students who have a breadth of experience.

LIS does not offer only lessons but also some other activities to make students relaxed and motivated for the lessons.

They are:

1. Clubs (Jazz club, Mind Games club, sport clubs, Digital Art club, Cuisine club, Robotics, Cinema club, Model United Nations, President's Award Club etc....)
2. Going to the Museums

30. PUBLICATION AND NEWS MEDIA-OPT-OUT FORM

- 30.1. The LIS policy allows the release of the names and images of its students to promote school programs and events. In order to ensure that such videos or publications are appropriate, approval of school-level administration is required prior to the program or publication being produced.
- 30.2. If you would prefer that your child not be shown in promotional materials, please fill out the *media-opt-out form* in the appendix section at the end of the handbook and turn it into your school office prior to the start of the second week of school. This form will be kept on file to ensure that your child is not included in any promotional materials produced at his or her school. If you have more than one child in the school, please include each of the students' names on the form.

31. CAREERS AND UNIVERSITY GUIDANCE

The LIS offers all students the support of a Careers & University Guidance Counsellor. The role of the Counsellor is to ensure that students have the necessary skills to make the right choices regarding their future.

Parents are asked to support their children by:

- Being open and honest about financial constraints that might affect further education choices.
- Being open to their child's decisions and discussing it to better understand their choices.
- Visiting the universities being considered (if possible) to aid decision making.
- Finding out the facts about university applications and related topics through research and visiting the Careers Counsellor.
- Ensuring that all the application requirements of any chosen university are checked thoroughly.

31.1.MAPP Career Assessment.

1. MAPP is a fully integrated computer-aided assessment system that measures an individual's potential and motivation for given areas of work, and describes their temperament, aptitude, vocational interests and learning style preferences. The MAPP technology classifies, codes and identifies every kind of job and every type of person. Students in Year 9 and above classes take MAPP Assessment to assist them in subject selection and career planning.
2. Over 8 Million people have completed the assessment worldwide. It clarifies students' potential aptitudes and abilities as well as offering potential career suggestions and has proved to be very helpful and popular. Students and parents are encouraged to make an appointment to see the counsellor at any time. Things commonly discussed include subject selections, university course guidance, university choices, options and applications to university, including personal statements, letter of recommendations, required documentation, and references.

31.2.SAT Courses and US Universities Application Process

Students are selected in year 11 for this program by Respective Teachers and Career Counsellor. Selected students will have 3 years study plan to go to top universities in the world. In this program, we prepare our students for Ivy League universities which are top universities in the world. To achieve this, we provide;

- SAT exam preparation,
- Essay writing guides
- Personal statement writing guides
- Work experience opportunities in different job areas
- Volunteer community service opportunities

32. HOUSES

1. Every student at LIS belongs to one of its four houses:
Heisenberg – Green, Tesla – Red, Feynman – Yellow, Newton – Blue
2. These houses have two main functions. On the one hand, they represent four separate groups which compete against one another in events such as Fun Day, the annual house quiz and so on. Of course, this is all done in good spirit, and the chief purpose of the house system in this sense is to create intra-school challenges and competition.
3. They also have another equally important role to play. Each house has a special responsibility to form links with the community at large. They might, for instance, put together an assembly to which they invite visiting speakers or groups of outside contributors. They also organise fund-raising events raise money for charity. In effect, this is one area of school life in which the specific aim is to look outside our immediate environment and to see what we can learn about or contribute to the lives of others.

33. STUDENT COUNCIL (SC)

The SC links students from all Years to foster teamwork and leadership opportunities now and for the future, working together to improve LIS. The SC is led by students for students and is an active and forward-looking organisation. It is the voice of the students but offers solutions, not just complaints. SC members are appointed by the school administration based on the evaluation of the teachers. The SC meetings are chaired by the Head Students. Dean of students attend the meetings as non-voting advisors. The SC meets fortnightly.

The details of running of SC is explained in SC Constitution

Parents and/or students should first bring the matter to the class teacher for resolution. If the matter is not resolved, a conference with a deputy principal or coordinator may be requested. If the matter is not resolved with the deputy principal or coordinator, a conference with the head teacher may be requested.

35.2. For Parents/Guardian:

The school has a complaints policy in order to help deal promptly and effectively with concerns raised by parents. The policy and procedure aim to reassure parents and others with interest in the school that:

1. Any complaint against the school will be dealt with in a fair, open and responsive way, with the aim of achieving a speedy and satisfactory resolution; and
2. The school recognises that a willingness to listen to questions and criticism and to respond positively can lead to improvements in school practices and provision for pupils.

35.3. Scope of the Policy

1. Complainants may be anyone, e.g. parents, guardians, grandparents, neighbours of the school or anyone with an interest in the work of the school. However, it is expected that it will be mainly parents or guardians who will make use of this procedure. The term 'parent' is therefore used throughout the procedure as a generic term, but the procedure also applies in relation to any other type of complainant.
2. Complaints may be made by telephone, e-mail, School Information System (CoolSiS), in person or be written.
3. A complaint is defined as a clear statement of dissatisfaction about any specified aspect of the school's work. This procedure deals with specified day-to-day complaints against the management and/or operation of the school.

2. The Principal keeps a file of hard copies of Formal School Complaint Forms.

If the parent seeks to re-open the same issue, the school reserves the right to inform him/her in writing that the procedure has been exhausted and the matter is closed.

35.5. Informal Stage

1. On occasions, a parent may raise a concern directly with school staff without any formality. At this stage, it may be unclear whether the parent is making a complaint, seeking information or has misunderstood a situation. In any event, the school aims to resolve the concern at this point speedily and effectively.
2. However, if the concern is not resolved immediately and a complaint is confirmed by the parent, the opportunity to discuss the matter with an appropriate member of staff will be given e.g. Deputy Head, Head of Department. In the case of a complaint against the Head Teacher or Deputy Head, this stage will always be heard directly by the Head Teacher.

35.6. Teacher himself.

1. The member of staff will discuss the issue with the parent and those involved in school, with the aim of resolving the complaint as soon as possible. The parent will be informed of the outcome of the investigation and what action, if any, the school proposes to take.
2. If the informal process has been exhausted and no satisfactory solution has been found, the parent will be asked by the member of staff dealing with the complaint whether (s)he wishes the complaint to be considered formally at stage one of this procedure.
3. If wishing to proceed with the complaint, the parent will be invited to put the complaint in writing to the Head Teacher using the Formal School Complaint Form available from the School Office. The form should be sent to the Head Teacher within ten school days.

36.5. Illness

Pupils who are sick should not be sent to school. The best place for them to recover is at home. Sick children also risk infecting other healthy children.

Examples of this would be if a child has been vomiting in the last 12 hours, has diarrhoea, a fever or a contagious illness. In the case of communicable diseases, the school should be notified immediately, so that other parents can be informed.

Further examples for keeping a child at home would be;

1. Temperature of 38°C or above
2. Nausea, vomiting or severe abdominal pain
3. Drowsiness
4. Acute cold, sore throat and persistent cough
5. Red or inflamed discharging eyes
6. Acute skin rashes
7. Suspected scabies or impetigo
8. Swollen glands around the jaws, ears or neck
9. Earache
10. Head Lice
11. Other symptoms are suggestive of acute illness.

36.6. First-Aid and Accident Procedures

The health and safety of each child are of paramount importance to the school.

However, occasionally accidents may occur, or children may fall ill during the school day. The school will administer whatever first aid measures seem necessary if a child is sick or injured at school. If necessary, the school will telephone the parents.

37. LIS INFORMATION SYSTEM (CoolSiS)

CoolSiS provides internet accessible software applications to schools. CoolSiS leverages technology to ease reporting weight, open up lines of communication and simplify internal processes, such as scheduling and grading.

CoolSiS Student/Parent web pages increase school/home collaboration; provide parents with anytime, anywhere access to student progress; and enable students to take more accountability for their own learning and overall academic performance.

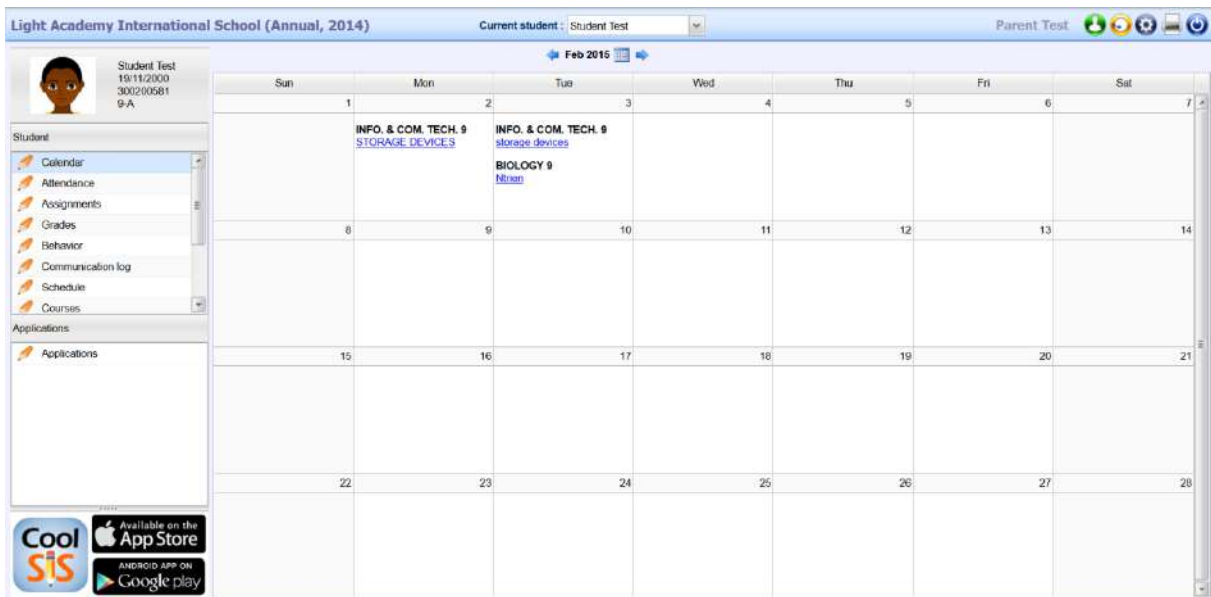

Figure 1. Appearance of Calendar

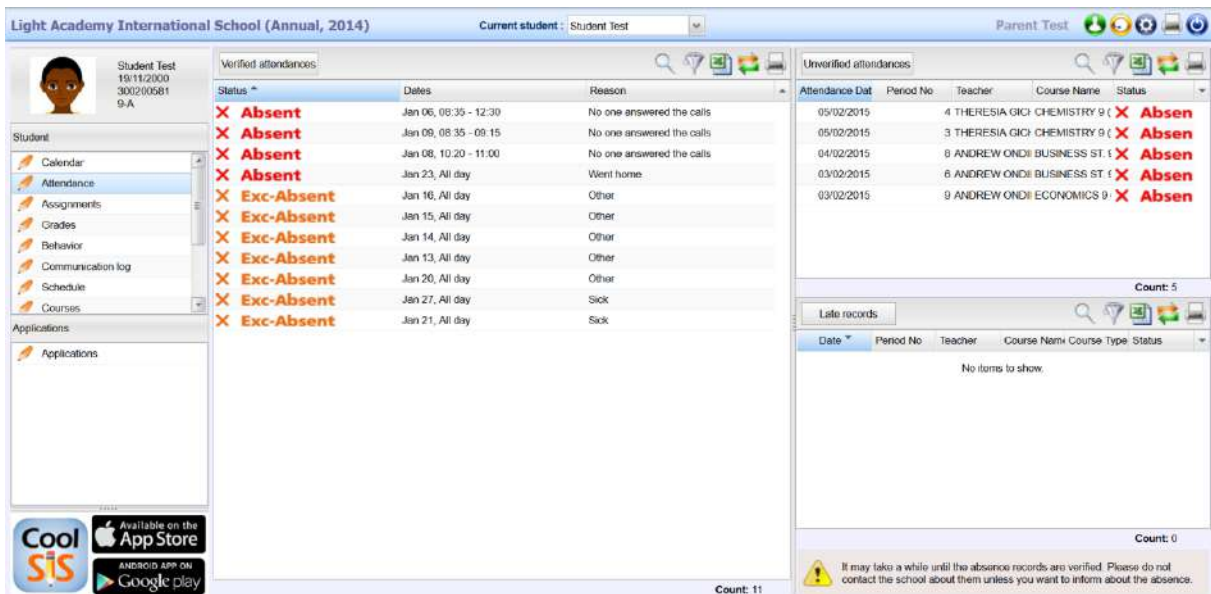

Figure 2. Appearance of Attendance

A key to improve academic performance in students is to get their parents involved. Parents may not find to time to reach out to their computers to access vital student information. With the CoolSiS Mobile Application parents can access this information anywhere and anytime in an app-friendly way.

Figure 3. CoolSiS Mobile Application

37.1. CoolSiS Modules:

1. Parent & Student Web Access: Parents and students get access to view all up-to-date grades, assignments, schedule, behaviour incidents & scores, attendance, calendar, communication log (parents only), applications (parents only), checklist (parents only) courses, course/club choices, transcript, reports, and school contact info.
2. Mobile Application: With the Mobile Application parents and students have access to most of the same live information from Web Access. Check educational information from anywhere, 24/7 using any smartphone.
3. Online Inquiry: Schools can set up a link on their website to receive inquiries from interested parents. Each inquiry automatically starts an application that can be seen by your school's office manager.
4. Reports: All reports on CoolSiS are easy to read and provide useful organization of data to be analysed by users. CoolSiS has predefined reports for each module and can make custom reports through each user's window.

38. STUDENT BEHAVIOUR, DISCIPLINE, AND RELATED MATTERS

38.1. Disciplinary Procedures

The school intends to nurture and educate students to make thoughtful decisions, and also comprehend possible consequences of their actions. Continual or deliberate patterns of inappropriate behaviour or actions that endanger an individual or the greater student population need to be handled appropriately, with an approach meant to educate the student and provide all students with a safe, uninterrupted learning environment.

Behaving responsibly is more valued than behaving obediently; therefore, it is our goal to develop the essential motivation in students to become self-disciplined and to take personal responsibility for their actions instead of relying upon extrinsic rewards and punishments. Good behaviour is related to reasonable rules, a consistent process of responsibility training, cooperation with parents and outstanding teaching.

38.2. Violations of School Rules and Regulations

1. All students are required to observe school rules and regulations mentioned in this book keenly. Breaches of behaviour guidelines, rules and regulations may subject the student to disciplinary measures.
2. Violations of the Student Behaviour Guidelines are grouped into three classes; minor, intermediate, and major.

3. Class-I offenses will generally be dealt with through in-school disciplinary actions. Class-II offenses will usually require more severe disciplinary actions, such as suspension. Class-III offenses are of an extremely serious nature and generally, will warrant a recommendation for a Suspension or Indefinite Suspension. It is important to note that repeated violations or special circumstances may warrant a recommendation from the principal for more severe disciplinary action up to and including Indefinite Suspension.

38.3. Disciplinary committee

The Disciplinary Committee is responsible for handling and investigating the cases, making decisions and executing penalties.

38.4. Procedure for a Disciplinary Action

1. **Lodge:** Any member of the LIS Community can register a complaint on school information system CoolSiS or an appeal in writing and submit it to the Principal, and to the members of the Disciplinary Committee.
2. **Defence:** Involved students are asked to submit their defences. Evidence is also collected from witnesses if necessary
3. **Evaluation:** The Discipline Master evaluates the complaints and defences and either resolves to discuss it with the class teacher, Dean of students, the student(s) or send it directly to the Discipline Committee.
4. **Meeting:** The Discipline Committee assembles to discuss the issue and evaluates the evidence. Involved people, the class teacher and witnesses are summoned to discuss or give evidence.
5. **Verdict:** If substantial evidence is collected, the case is concluded by the committee members' votes. The verdict is given by taking into account the student's general attitude and discipline record. Special consideration can be made by the Committee. In its deeds, the Discipline Committee is independent and not responsible to any third parties but the principal.
6. **Execution:** Punishments can only be given by a supervisor, teacher, boarding master, and the Discipline Committee.

38.5. Types of Disciplinary Measures

1. **COUNSELLING SESSIONS:** Verbal reprimand is given. The student is warned verbally to desist from his actions. He is also informed on the implications of his action(s).
2. **CONFERENCES:** Verbal reprimand is given by a number of persons in a meeting which may include the student, the parent, class teacher, Dean of students, Deputy Headmaster.
3. **LOSS OF BEHAVIOUR POINTS:** Each and every behavioural incident and its consequences will be recorded on the school information system CoolSiS. Having below specific points may lead to severe consequences.
4. **LOSS OF PRIVILEGES:** Depending on the severity of the case, the student(s) can be barred from club activities, sports activities, tournaments, educational trips, swimming and other extracurricular activities.
5. **ASSIGNMENT OF SPECIAL TASKS :** Range of social services imposed on a student(s) include, but are not limited to, collecting litter, peeling potatoes, cleaning toilets; doing office work assigned by any staff member. (In offices, reception, gate, and library)
6. **WARNING LETTER:** The parent is informed about the indiscipline and the action taken, if any.
7. **CONDEMNATION LETTER:** The implication of this letter is that any further serious offence committed by the student warrants at least a suspension. Parent(s) may be summoned for a meeting.
8. **DETENTION:** Detention can be administered by the Boarding Master, Subject Teacher or the Discipline Committee for any reason deemed as interfering with the education process or non-compliance of school rules. Students may be detained for engaging in the following types of behaviour: tardiness, absence from class without permission, failure to be prepared for class and other matters of this nature. Detention hours are determined by the school administration and may be extended to after class hours and Saturday. All school rules apply to detention. A student cannot be late or disruptive for detentions and must be busy with schoolwork during the entire detention period. Students are expected to arrive in the detention room on time, carry and work on assignments. It is the student's responsibility to remember the detention obligations. If student skips two consecutive detention sessions or chooses not to follow the rules of detention, he may be suspended.

9. **SUSPENSION:** Suspension is of two types and can take up to two weeks.
- Suspension from Hostels:** (for a boarding student) It is an exclusion from hostels for a specific period of time after which, the student has a right to return. During suspension, a student will attend school as a day scholar. The student and his parents are expected to meet with a school administrator prior to the student's return to the hostels with an undertaking that the student would henceforth be of good character.
 - Suspension from School:** It is an exclusion from school for a specific period of time after which, the student has a right to return. During the suspension, a student may not be in the school premises and is ineligible to participate in any school-related activities including athletic activities. The student and his parents are expected to meet with a school administrator prior to the student's return to class and sign an undertaking that the student would henceforth be of good character in attitude and in learning.
10. **INDEFINITE SUSPENSION:** Indefinite suspension is of two types, namely
- Indefinite Suspension from Hostels:** (for a boarding student) It is the exclusion from hostels for an indefinite period. A student attends school from home.
 - Indefinite Suspension from School:** It is the exclusion from school indefinitely.

It should be noted that it is a student's responsibility to report any indiscipline case that he witnesses to help the administration in ensuring a peaceful and safe atmosphere for everybody in the school compound.

38.6. Behaviour Points System

In case of any good behaviour or misconduct students' points are increased by addition of points or decreased by deduction of points respectively. Students who reach some certain positive points may be rewarded or s/he may be punished in case of having dropped to some low points as shown below. **We strongly, advise that as a parent/guardian/sponsor know that it is your responsibility to check on CoolSiS regularly the status of your child and if possible give feedback to the school.** Also, we expect you to either guide, encourage, motivate or congratulate your child to enable us to meet our intended goal.

LIS reserves all the rights of making amendments in the school's discipline policy with or without informing parents/guardians/students.
