

Your termly guide to school's events, news, and updates

PRINCIPAL'S MESSAGE

Dear LIS parents and guardians,

We have reached the end of successful academic term of 2021/22. Thank you for a wonderful and productive 1st term. I can't thank everyone enough for your support in attending meetings, organizing, donating, and doing whatever was necessary to support students—both at home and school and sharing with us the responsibility of guiding our students through their studies.

To LIS students:

Thank you for all your hard work throughout the school term. I am honored to be your principal. For now, we wanted simply to reach out to say that we miss our students very much. We wish you a safe and healthy term break and look forward to seeing you again in the 2nd term.

Until the next school term, here's wishing you love, laughter, and learning.

This brief newsletter will cover some events that our students took part in during this ending first term of the school.

In the new school year, we have tried to make it more attractive for our children by completing the renovation and repair works. We renovated playgrounds and the construction of the artificial field has finished this term, and we had the honour to have our parents grace the inauguration event.

We have tried to share photos of curricular & extracurricular activities that we have done throughout the term on our social platforms;

DONATIONS MADE TO MAJIVUNI PRIMARY

The donation raised through Free—Dress—Friday went towards Majivuni Primary School. A selected school visited by our students met its administration.

Our students were involved in every step of this worthy project, from inspecting the need of the school to purchasing the products requested by the school administration. Thank you, parents, for your generous donation and kudos to our students for efficiently managing this project.

STUFF DONATED TO THE SCHOOL

- 1 sprinkler
- 1 wheelbarrow
- 2 jembes
- 1 metal rake
- 1 wooden stick
- 1 horse pipe
- 1 knapsack sprayer
- 1 pruning scissors

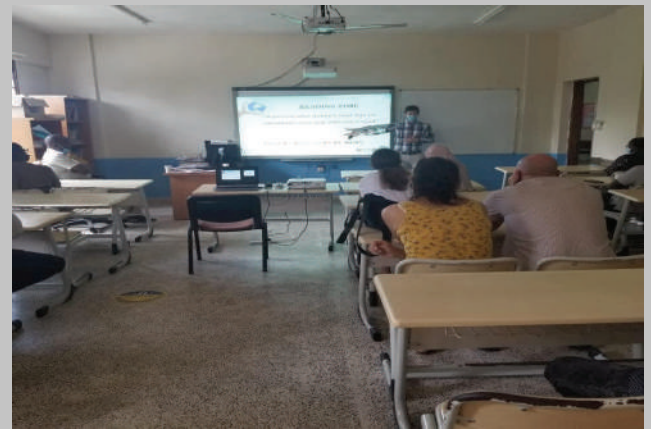

MEETINGS & SEMINARS

We held reflection meetings for checkpoints, IGCSE, and AS-Level candidates. Parents were called in for these meetings and updated on their children's academic progress. We also called a representative from Strathmore university for an academic seminar to help our students understand the process of university admission and the importance of As and A level in university admission.

Parents orientation was held at the beginning of the term. The aim was for parents to stay abreast of the school programs, digital applications, and school activities.

READING PROGRAM

This term, we have introduced a reading session as part of our development plan in our students' education.

MENTORING PROGRAMS

Our mentor program provides guidance and support to our students through different activities designed to contribute to their personal, professional, and ethical development. We hope to raise knowledgeable individuals with a mindset ready to tackle the challenges they will face in life upon leaving school. Also, we aim to teach moral values in & out of school compound through mentoring program.

BEACH CLEANUP ACTIVITY

The school organized a beach clean-up where students and their teachers participated in fulfilling their social responsibility and community service. We are committed to spreading awareness about our local beaches' and environmental pro-

STUDENTS OF THE MONTH

Every month, students are evaluated by their teachers based on their behavior in and outside the classroom. Students are then selected to be the student of the month of their class. In addition to receiving recognition for their outstanding behavior, students are treated to a special lunch with the school principal, Mr. Gokhan in his office.

SCIENCE FAIR

Our students exhibited their science projects at the science fair event. The projects vary from DIY of making shoe rack using recycled water pipe to a solution that tackles real-world problems. The primary purpose for the event was to get students excited about science by doing it rather than simply learning about it.

We encourage scientific and technological creativity among students and inculcate a sense of pride in their talent.

Students received their participation and achievement certificates from the head of the Education Office.

CERTIFICATE RECEPTION

Students received certificates and gifts as a reward for merit in art. This was awarded to students who had shown progress in their art work.

Beach cleanup certificate of participation awarded to senior students.

Students' creativity writing was tested in the Composition Competition. The best in each class were awarded stationery gifts. Kudos to all.

INTERNATIONAL MATH-CHALLENGE CONTEST

Our students participated in **International Online Math Challenge** contest which is an important and fun competition for our young students to show case their skills in a variety of math topics. Students are given participation and achievement certificates.

COOL-SIS

BEHAVIOR FOLLOW-UP SYSTEM

All staff are encouraged to assess students' actions in-out of the classroom. By this way, students collect positive and negative behavior points throughout the month. Top scorers receive certificate of good behavior generated from the Coolsis. Hence, students avoid doing wrong behaviors and compete in being good.

MATHLETICS

ONLINE APPLICATION

Mathletics is an online application we offer our students to develop their math skills that they have gained in their math classes. Student got to the ICT room weekly and practice their skills online.

KINDERGARTEN

TALENT SHOW

With the help of their parents , our kids prepared fun play and entertainment for the talent show. Kindergarteners grace the event with their talent and entertained the audience. All thanks to our parents for the preparation and commitment.

SCIENCE FAIR

Our kids had their own science fair event where their imagination took them to the world of science. We promote interest in Science and Technology among the younger generation.

END OF TERM CLOSING ACTIVITIES

The end of the school term has come to a successful end. Our students closed this day with fun and exciting activities. They had Sharing Day, Fun Day and mentorship activities. A busy term has come to the perfect end and left the students buzzing with energy and positivity. We thank our parents for their continued support. Happy restful holiday. **See you all on the 5th of January 2022.**
