Be Safe, Be Respectful, Be Responsible, Be a Learner

PRINCIPAL'S MESSAGE

Dear parents and guardians,

We have reached the end of the successful academic year of 2021/22.

Thank you for making the academic year wonderful and productive. I can't thank everyone enough for your support in attending meetings, organizing, donating, and doing all that was necessary to support students—both at home and school and sharing with us the responsibility of guiding our students through their studies.

To the students:

Thank you for all your hard work throughout the academic year. I am honored to be your principal. For now, we wanted simply to reach out to say that we miss our students very much. We wish you a safe and healthy break and look forward to seeing you again in the next academic year.

This brief newsletter will cover some events that our students took part in during the last term of the school academic year.

In this school year, we had several activities like World Scholars Cup, football tournaments, mentoring programs,

We shared photos of curricular & extracurricular activities that we have done throughout the term on our social platforms;

MENTORING *Program*

The head mentor arranged a trips for the high school boys and girls to Mombasa. They had a seminar purposed to educate them on various life skills. They also visited several sites like the beach, and the cinema and got to bond with one another. They shared meals with their mates and teachers. The trip was not only fun but it also created a good impact on the students.

Year 9 subject selection

The year 9 students, their parents, and teachers had a seminar where they gained more knowledge on criteria for subject selection and were guided through the process.

It was a successful seminar with a good turnout. We really appreciate the support from our dear parents.

Year 6 Students Dinner

On the 1st of July, the school held a dinner graduation party for our year 6 students. They performed well in their Cambridge checkpoint examinations and will be promoted to high school next academic year. The school is proud of them and we wish them all the best in high school.

KG 3 GRADUATION

our KG 3 students graduated on the 7th of July 2022. They got to celebrate their achievements with their parents and teachers. It was a colorful and successful event.

We are so proud of them and wish them all the best as they join primary school next academic year.

Teamwork

The students worked together to complete particular assignments. Through these projects, the students got a chance to showcase what they are good at and contribute their talent or skill to the project.

When great talents come together, the project is a sure success.

Year 12 Graduation

In the company of their parents, teachers, and classmates the outgoing students got a chance to celebrate their wins during the graduation ceremony. The primary students graced the ceremony with some songs and dances. The graduates took photos with their mates and bid each other goodbye. It was a successful day.

We congratulate them and wish them all the best in their future endeavors.

Orphanage visit

Every first Friday of the month, we have free dress Friday whereby the students come to school in their home clothes and pay ksh 50. The money collected is used to buy some items for children at the orphanage. Students are chosen to visit the orphanage together with their teachers. It is always such a great experience for them.

The children were delighted to see us around though we had very little time to stay with them. They appreciated LIS Malindi for always being there for them.

God bless us all in giving generously to cause a smile.

Art fun day

Every term, the art department organizes a fun day where parents, students, and teachers get a chance to paint together.

This term the event was colorful and a great success. The students and their parents made beautiful art and we look forward to having more art fun days in the coming academic year.

Mother's day

On mother's day this term, the students made cards for their mothers. The cards symbolize their love for them and how grateful they are to have them in their lives.

The purpose of this act was also to teach the students the value of giving rather than receiving. This is to instill in them a sense of pride and self-esteem; character traits that will take them far as they grow.

Netball

This term, the games department introduced netball, the students practiced it throughout the term together with their teachers.

They also went to a netball tournament at Kivukoni International School Kilifi. They got good exposure and build interest in the sport.

We look forward to more netball practice in the coming academic year.

FOOTBALL TOURNAMENT

This term the students participated in various football tournaments. They got to play with various schools, improve their skills, and visit various schools. The under 16 boys emerged winners in their tournament.

The tournaments brought not only physical benefits to the students but also taught them ownership, and conflict-resolving skills and built their motivation.
