MENTORING PROGRAMS

As part of the Year 8 Mentoring Program, students participated in an exciting and engaging outdoor activity on **Saturday, 24th May 2025**. The group visited Karura Forest, where they enjoyed a guided bike riding session through the scenic trails. This experience not only promoted physical fitness and environmental awareness but also encouraged team-building, resilience, and self-confidence among the students.

After the biking adventure, the group proceeded to a nearby venue for a relaxed lunch, providing an opportunity for informal bonding and reflection on the day's activities. The outing was well-supervised and smoothly executed, with students demonstrating exemplary behavior and enthusiasm throughout.

Overall, the event was a great success and contributed meaningfully to the objectives of the mentoring program by fostering connections between students and mentors in a supportive, non-classroom environment.

Thank you for your continued support in making such enriching experiences possible for our learners.
